The simple alternative to paying workers without a bank account

## The simple alternative

From application through to wage payment, OnePay is by far the fastest, easiest and most efficient way of paying workers without a bank account of their own.

**The OnePay Account is warmly welcomed by recruitment agencies and employers because of the great benefits it offers.**

Firstly, it makes wage payments simple, swift and secure, allowing each worker to use their account to make cash withdrawals or shop in the high street or online.

Next, it operates exactly like a high street bank account as far as your systems and processes are concerned – because just like a bank, each person gets an individual account number and sort code.

And finally, it saves the time, expense and aggravation of paying by cash or cheque.

Bringing OnePay into your workers' world makes life easier all round.

“ Whenever I call OnePay the people are always helpful and friendly, they really do their best to help. I'm never worried about calling if I need some help or have any questions about my account.”

Christine Turner, employee

## The OnePay account in action

Everything about the OnePay account is simple and streamlined, designed to give you the maximum benefit with the minimum effort.

### Application

OnePay accounts can be opened in 2 ways:

**Data transfer** – application information is sent to OnePay by email – this can be either an individual application or a batch of applications.

**Individual application form** which can be either emailed or faxed to OnePay.

Since ours is a tightly-controlled operation, there's no need for credit checks: approval for your workers is virtually guaranteed.

Once we receive an application, an account card and PIN are issued as quickly as possible: crucially, we aim for both to be in the hands of workers in good time for the first payday.

### Paying wages

With OnePay, each worker has an individual account number and sort code, so payment operates in exactly the same way as it would to employees who hold a high street bank account.

### When do workers get paid?

On their normal payday (at the same time as workers with a high street bank account).

### Which of my workers is OnePay suitable for?

Any of your workers who do not have a bank account of their own.

### Who distributes the OnePay cards?

Cards can be sent directly to the workers address, or alternatively, we can send them to you for distribution to your workers.

### Can I claim work related expenses?

Subject to the account holders agreement travel and any other agreed expenses can be charged to the workers OnePay account. Amounts debited are automatically paid back to your business within a few days.
